Our Suits in French Courts.

The suit of our Government in the French Courts, conducted by M. Berryer against the Messrs. Arnand, ship builders, and Erlanger, banker, to recover six or eight millions of dollars, the proceeds of ships built for the rebels and sold to the Danish Government after the fall of the Confederacy, has not been lost, but appealed to a higher court. The lower court rendered its decision on account of the lack of certain evidence which the Government expects to present on the next hearing.

Organization of Clubs in the Different Wards and Boroughs of the County.

The following Grant and Colfax Clubs have been organized in the city and vicinity:

FIRST WARD.

A meeting was held at City Hall last evening for the purpose of perfecting the organization of the Grant and Colfax Club for the First ward.

The meeting was called to order by Mr. James Reve, and on motion Joseph Ross, Esq., was appointed Chairman.

The minutes of the last meeting were read and approved.

Mr. Hunter moved that a committee of nine for the purpose of organizing the ward be appointed. Adopted.

The following gentlemen were appointed members of the committee: George B. Hibbard, George W. Coffin, Jonah Cohen, George D. Perkins, Alexander W. Locke, Charles Bierman, D. R. Speer, Edwin Kincaid, W. Jarvis.

On motion the name of Mr. W. B. Hunter was added to the committee.

On motion the names of F. J. Lattimer, Leopold Cohen, John Biggerstaff and Samuel Parker were added to the Vigilance Committee.

On motion Mr. Coffin was appointed Chairman of the Committee on Organization.

The Club then adjourned to meet on Friday evening next, to hear the report of the Committee on Permanent Organization.

Arrival of Diseased Cattle—The Spanish Fever—Great Mortality.

Considerable excitement was created in the city yesterday by the arrival from the West of a stock train containing a large number of cattle, all of which seem more or less affected with the Spanish or "Texas" fever. The train consisted of eighteen cars, containing in all about three hundred head. On its arrival here, sixty-four of the animals were found to have died on the way, and during yesterday many that seemed in good health were stricken with the disease and died. The Chicago papers of Monday mention the arrival at that point of a large lot of cattle similarly affected, none of which could be sold. It is probable that these are portions of the same lot, and it would seem that the crowding together in the stock cars aggravates the disease and increases the mortality. Some of these cattle are from Texas, while the principal portion were brought from the Northwestern States. The Texas cattle stand the fever much better than the others, but the whole lot looks very sickly. The Pennsylvania Railroad Company gave orders not to ship them any further east, and they will probably all be rendered into grease here. Some speedy disposition should be made of them, because, if they are allowed to pasture here there is great danger of spreading the disease among our native cattle. Those who have grazing lands in this county will be slow to allow these diseased animals to enter upon them, as by so doing the fever may get a hold which cannot be checked until great damage is sustained. Our Meat Inspector should also keep a sharp look out for these animals, and see that none of them are allowed to find a place on our market stalls. Those who deal in interior or "cheap" meat should be carefully watched, and any attempt to sell the flesh of these animals for food should be punished to the extent of the law.

Pittsburgh Petroleum Association—Resolutions of Condolence.

A special meeting of the Pittsburgh Petroleum Association was held yesterday at their rooms, H. Long, Esq., in the chair, A. F. Brooks, acting as Secretary.

The President, H. M. Long, stated that the meeting was called for the purpose of passing resolutions of respect to the memory of Robert Lafferty. He remarked that Mr. Lafferty's death was the first which had occurred in the membership of the association, and proceeded to speak of his excellent character. At the close of Mr. Long's remarks, the following resolutions were read, and, after appropriate remarks by Messrs. R. H. Waring and J. A. McKee, were unanimously adopted:

Public Amusements.

THE ACADEMY.—There was a fashionable audience at the Academy of Music last evening, and the new pantomime of "Number Nip" was received with shouts of laughter. It was admirably put upon the stage, and the tricks and changes were given with a rapidity and correctness that astonished and amused the audience. [illegible]

CUP STOLEN.—Street Commissioner McFadden had a pipe put in the spring on Second street, near the Birmingham bridge, and a zinc cup with a chain attached for the convenience of thirsty persons having occasion to pass there. Yesterday the cup was stolen, and the police were instructed to keep a lookout for the thief.

THE ALLEGHENY SCHOOLS.

Meeting of the Board of Control—Report of the Committees on Text Books and Grades—Exciting Discussion Thereon—The Text Books Adopted—Music Teacher Elected—The Tax in the Eighth Ward—Special Meeting to be Held, Etc.

A regular monthly meeting of the Board of Controllers of the Allegheny Public Schools was held last evening in the Common Council Chamber, in City Hall. The Board was called to order at half-past seven o'clock, and was opened with prayer by Rev. E. E. Swift.

The Secretary called the roll and the following members were found to be present: Messrs. Barr, Brown, John Jr., Barker, Boyd, Borland, Chadwick, Dunlap, Eaton, Francis, Crowther, Kollock, Kimball, Ingham, Loomis, Lea, Lockhart, Mussler, McCance, McClintock, Pitcairn, Richey, Swift, Thorn, Torrence, Tremble, White, Young, Alex., Young, Robert, and Clark.

The President, Rev. Dr. J. B. Clark, presided, and R. H. Francis, Esq., officiated as Secretary.

The minutes of the last meeting were read and approved.

REPORT OF THE WARD BOARDS.

The reports of the Local Boards of the different wards were called for.

The First, Second and Third wards made no report.

The Fourth ward Board reported that they had elected Fulton Phillips as Principal and A. McKinley as Writing Teacher of the School. The elections were approved.

The Fifth Ward Board reported that they had elected the following teachers, which were approved: Intermediate Department—Miss Annie Shriver, Miss Emma Agnew; Primary Department—Miss Annie Pitcairn, Miss S. A. Johnston, Miss Emma Cubbage.

The Sixth ward made no report.

GRADES AND TEXT BOOKS.

Mr. Swift presented the following report of the Committee on Grades and Text Books:

The Committee on Grades and Text Books would report, recommending:

First—That the grades for the ensuing year be the same as those adopted by the Board, August 4th, 1865, and soon after published in the "Rules of the Public Schools of the City of Allegheny."

Second—That the following list of text books be adopted for the ensuing year:

Osgood's Spellers and series of Readers.
Clark's Grammars.
Brooks's Primary, Normal, Mental and Elementary Arithmetics.
Ray's Third Part and Test Examples in Arithmetic.
Ray's Higher Arithmetic.
Ray's Algebra—First and Second Parts.
Davies' Legendre Geometry.
Guyot's Geographies.
Thomas Lynd's Etymology.
Pinneo's Guide to Composition.

Loomis's Elements of Geology.
Webster's School Dictionary.
Merry Chimes (music.)
(Signed)

ELLIOT E. SWIFT,
JOHN B. INGHAM,
ALEX. YOUNG,
S. F. CROWTHER,
C. W. KIMBALL.

ALLEGHENY, July 21st, 1868.

On motion of Mr. John Brown, Jr., the report was accepted.

Mr. Eaton said that Mr. King, who is now on a visit to Europe, had handed him the following minority report of the committee:

MINORITY REPORT OF COMMITTEE ON GRADES AND TEXT BOOKS.

The undersigned having compared Dean's Intermediate Arithmetic with "Ray's Part Third" are conscientiously of the belief that the former (Dean's) is the better book, and should therefore be used in our schools.

But one thing should influence our judgment in the use of text books, that is merit, and a comparison of the merits of the two books convinces us that Dean's Intermediate is superior to the one now in use.

Respectfully submitted,
JOSEPH KING.

A motion was made to accept the minority report. Mr. Alex. Young objected to accepting the report. He said that Mr. King was notified of a meeting to consider the subjects of grades and text books, and did not attend. Mr. King had left a paper here signed by some party to fill it up.

Mr. Eaton asked what the gentleman meant by saying that Mr. King had left a paper signed for some party to fill it up.

Mr. Young made no reply.

Mr. Eaton then said as the gentleman declined to reply, the members could judge for themselves in the matter.

The motion to accept the minority report was then put and carried.

ADMISSION OF THE EIGHTH WARD BOARD.

Mr. John Brown, Jr., moved that before the meeting proceeded to the consideration of the reports, that the members elect to the Board from the Eighth ward (Duquesne Borough) be invited to seats. The motion was carried, and the members from the Eighth ward took their seats.

DISCUSSION ON THE TEXT BOOKS.

Mr. Barker then moved that the majority report of be committee be adopted.

Mr. Eaton moved to amend by taking up the report seriatim, that is to consider each book separately.

The question was called on Mr. Eaton's amendment, which resulted in its adoption.

The Board then proceeded to the consideration of the different items in the report.

The first item relative to grades was approved.

Osgood's Spellers and series of Readers, and Clark's Grammars were adopted without discussion.

The subject of the adoption of Brooks's and Ray's series of Arithmetics were taken up.

Mr. Eaton moved to substitute Dean's series of Arithmetics for both of them.

The motion was lost.

The question was then taken on the question of adopting Brooks's and Ray's series, which resulted in its being carried.

Ray's Algebra and Davies' Geometry were adopted without discussion.

Guyot's Geographies were then taken up for adoption.

Mr. Torrence moved that Warren's Geographies, those at present in use—be substituted for Guyot's.

A communication was then read by the Secretary from Messrs. Cowperthwait & Co., publishers, Philadelphia, stating that in case of the adoption of Warren's Geographies by the Board they will exchange the new series of Warren's Primary Geographies for the old ones now in use.

Mr. Alex. Young spoke strongly in favor of the adoption of Guyot's Geographies, and said that the members were not wasting their time in favor of Warren's Geographies.

Mr. Lockhart inquired what the cost of Guyot's would be.

Mr. Swift replied that the publishers of Guyot's agreed to exchange their Geographies for the Warren's now in use, allowing in the exchange the original cost of the latter.

Mr. Francis was opposed to changing any text books until he could see the benefit to be derived by such a change. In this case he was opposed to a change.

Mr. Robert Young was in favor of adopting Guyot's, as he thought it was by far the best Geography.

Mr. Eaton was opposed to any change, and was in favor of retaining Warren's series.

Mr. Pitcairn said that the teachers in the First Ward School had told him that it was a loss of time to the pupils while using Warren's Geographies.

The members of the Board disagreeing in regard to the difference in the price of the systems, the agents of the respective geographies present were requested to make a statement of the prices of their books.

The agent for Guyot's Geographies stated that the price for their books were as follows: Primary, 60 cents; Intermediate, $1 35; Common School, $1 90. The agent for Warren's system stated that their prices were as follows: Primary, 60 cents; Intermediate, $1 25; Common School, $1 50.

The yeas and nays were then called on Mr. Torrence's motion to amend the report by adopting Warren's Geographies instead of Guyot's, which resulted as follows:

Yeas—Messrs. Barr, Dunlap, Eaton, Francis, Kollock, Lea, Lockhart, Mussler, McCance, Richey, Torrence, Tremble and White—14.

Nays—Messrs. John Brown, Jr., Barker, Borland, Chadwick, Crowther, Grouard, Kimball, Ingham, Loomis, McClintock, Pitcairn, Swift, Alexander Young, Robert Young and President Clark—15.

So the motion was lost.

The yeas and nays were then called on the motion to adopt Guyot's System, which resulted—yeas 15, nays 14.

Some members considering that the motion had been adopted, Mr. Francis arose and raised the point of order that it took a majority of the Board—nineteen—to adopt.

The chair sustained Mr. Francis, so the motion to adopt was not carried, and the matter laid over for present.

The remainder of the text books as reported by the committee were taken up and all adopted without discussion.

On motion of Mr Torrence, the report was adopted as a whole, with the exception of Guyot's Geographies, which lays over for the present.

THE SCHOOL TAX IN DUQUESNE BOROUGH.

Mr. Barker presented the report of the special committee in relation to the school taxes in the Eighth Ward, (late Duquesne borough.) The committee reported that they had submitted the matter to legal gentlemen for their opinion. A written opinion from Messrs. S. A. and W. S. Purviance, the gentlemen employed, was then read. The gentlemen gave it as their opinion that the city had legal right to collect the school tax in the Eighth ward district, but that no other person or persons had any legal right to do so.

The report was accepted and ordered to be filed.

TEACHERS AND SALARIES.

Mr. Lea presented the report of the Committee on Teachers and Salaries. The report states that the salaries of all the teachers in the different grades including the music teacher, remain the same as last year, as will also the salaries of the Secretary of the Board, Janitor of the Board and the Janitor of the Colored Schools. The whole number of teachers at the close of last year was ninety-four, to which must be added for the Fifth ward one Principal and one teacher in Intermediate Department, and for the Third ward two teachers in the Primary Department, thus increasing the force of teachers for the year 1868-69 to ninety-eight, at a cost of $80,960, being an increase over last year of $2,629 91. The report was accepted.

Mr. Eaton moved that the salary of the Principal of the Colored School be increased to one thousand dollars which was lost.

The report, as amended, was then adopted.

ELECTION OF TEACHERS.

Mr. Robert Young presented a list of the teachers elected by the First Ward School Board, which was approved.

ELECTION OF A MUSIC TEACHER.

The Board then proceeded to the election of a Professor of Music for the city schools, to serve for the ensuing year.

Mr. Alex. Young nominated Professor W. H. Slack.

Mr. Crowther nominated Prof. J. M. Darling.

Mr. Borland read a communication from Prof. Darling, stating that he understood the Board intended to elect two music teachers for the ensuing year, in which case he would be a candidate. If the Board intended to elect but one Professor of Music, he would not be a candidate against Professor Slack.

Mr. Crowther then withdrew the name of Prof. Darling, and Prof Slack was re-elected music teacher for the ensuing year.

Mr. Barker said that owing to the crowded condition of our schools one music teacher was not able to give enough instruction to the pupils, and therefore moved that an additional music teacher be employed.

Mr. Alex. Young moved to refer the matter to the Finance Committee, to see if the condition of the funds will justify the employment of another teacher.

A motion to lay the whole matter on the table was put and carried.

BILLS.

The following bills were presented and warrants ordered to be drawn for the amounts named: McClintock, Hoag & Co., $19 13; Wm. Tate, Jr., & Co., $2 71; James Fielding, $1 25; *Gazette*, $1 50.

PRINTING OF ANNUAL REPORT.

Mr. Kollock moved that five hundred copies of the annual report of the Committee be printed.

Mr. Eaton moved to amend by making the number one thousand copies.

After some discussion, a motion to make the number seven hundred and fifty copies was adopted.

THE GEOGRAPHY QUESTION.

Mr. Crowther inquired what would be the best thing to be done in order to settle the question of adopting a Geography for use in the schools. The next regular meeting would not be held until after the school term had commenced, and the question arises whether the pupils should continue using the old Geography or whether they should dispense with the use of it until the Board should adopt one.

A member replied that if a Geography was not adopted before the schools opened that the pupils could not use the old one, but would have to dispense with the use of it.

The President suggested the propriety of calling a special meeting to settle the matter.

Mr. Tremble then put the suggestion in the form of a motion, and moved that a special meeting of the Board be called for next Tuesday evening, 12th inst., at half-past seven o'clock, to consider the question of adopting a Geography for use in the schools. The motion was adopted.

The Board then adjourned.

THE BENNEHOFF ROBBERY.

Return of Officer Hague from Canada—He Arrests one of the Alleged Robbers, who is Discharged by a Canadian Court—Escape of one of the Principals to Europe.

Detective Robert Hague, of this city, who for the past four months has been engaged in ferreting out the parties concerned in the great Bennehoff robbery, and who, in connection with officer David McKelvy, has succeeded in arresting four of the parties concerned in this gigantic "job," returned home yesterday morning from his mission to Canada, not having been as successful, however, as he expected. Officer Hague left this city on Monday, the 20th of July, for Meadeville, where he ascertained that a man named James Kapus, living in Philadelphia, who had been connected in some manner with the plot to rob Bennehoff, was willing to divulge what he knew of the matter and aid the detectives in bringing to justice the principal parties engaged in the scheme. Officer Hague accordingly repaired to Philadelphia, where he found Kapus, who told the officer all he knew about the matter, and consented to render all the assistance in his power. He said that Jim Saeger, employer of the plot, who is now in Europe, and carry him to hire some person to take charge whom he knew the plans arranged for the robbery, work, and for his nerve enough to accomplish the ten thousand dollars (Kapus's) trouble, he was to get cess of the scheme in case of the success employed an Irishman, Kapus accordingly nelly or Donaldson, living named Hugh Dontake charge of the "job," in Philadelphia, to informed Kapus that one of the party subsequently to help him in carrying out the plot was an Englishman named Charles Wright alias Gorman, who lived in Baltimore. After the robbery was accomplished, Kapus applied for his share of the ten thousand dollars promised him—but it was not forthcoming, and he accordingly determined to divulge the plot. Donnelly and Wright, Kapus informed officer Hague, were then, (July last) in Canada.

Officer Hague then returned to this city and subsequently proceeded to Washington City to obtain the necessary documents to aid him in his mission in Canada. On his way back from Washington, Hague was joined by Kapus, who consented to accompany him in ferreting out Donnelly and Wright.

The two arrived in Montreal, Canada, on Saturday morning, the 25th of July. Upon consultation with the authorities, officer Hague learned by telegraph that Donnelly had sailed that morning from Quebec on the steamer Australia for Europe, purchasing a ticket for Liverpool, England, and engaging first class passage and accommodation, for which he paid four hundred dollars. Officer Hague then sent a dispatch by the Atlantic Cable to the authorities of Liverpool, instructing them to arrest Donnelly upon the arrival of the steamer at that city, and giving such a description of him that they could not fail to identify him.

Officer Hague and his witness, Kapus, next turned their attention to Wright, whom they succeeded in ferreting out on the following Monday in Montreal. Hague took him into custody, and had him immediately taken before the court at Montreal for a hearing. Officer Hague procured a prominent lawyer named William H. Kerr, Esq., to conduct the case for him, while the prisoner had secured as his counsel Barney Devlin, Esq., one of the best lawyers in the Dominion. The hearing commenced on Monday and continued four days. The only witness officer Hague could produce was Kapus, who could not testify directly that Wright was engaged in the conspiracy, but only as to what had been told him by Donnelly. The case was postponed from day to day in the hope of securing more direct testimony to connect the prisoner with the robbery, and on Friday afternoon last it was submitted for decision. The Court decided that there was not sufficient testimony to hold the prisoner and he was therefore discharged.

Officer Hague and his witness, Kapus, being unable to do anything more in the matter, started for home, arriving here yesterday morning, as stated. Wright is now under bail in Montreal for trial on a charge of shooting and seriously wounding an officer during the Fenian invasion in Canada. If any more direct testimony against him is divulged in the robbery case, he can probably be taken into custody at any time.

To-morrow morning a hearing in the case of the four parties now incarcerated in the Venango county jail will take place at Franklin. The name of Bennehoff's hired man who was arrested last week for complicity in the robbery is George Geigen. The four prisoners, Weldiy, Shoppert, Miller and Geigen, it is stated, all express their desire to turn State's evidence and make a "clean breast" of the whole affair. Weldey has about thirty thousand dollars worth of property at Akron, Ohio, which he purchased with his share of the robbery. Officers Hague and McKelvy will leave the city this evening for Franklin to attend the hearing to-morrow.

Hearing Restored After Six Years Deafness.

DR. E. S. ABORN, No. 134 Smithfield street, Pittsburgh, Pa.

Dear Sir: For upwards of six years prior to placing myself under your treatment, I was a great sufferer from deafness. Before leaving London for the United States, I had been treated by distinguished ear surgeons whose skill and experience did not avail in my case. Learning from the columns of the daily papers that your treatment was so mild and universally successful, I resolved to place myself immediately under it. One week ago I was so deaf that I could not have heard the ticking of a watch, even if placed against my ear. To-day, after the lapse of only one week since you took my case in hand, I find my hearing restored so that I hear distinctly, and permanent recovery from the cause which produced my deafness.

Truly,
JOHN NOONAN, Irwin street.

NOTE.—Dr. Aborn successfully treats, by his new method, the various diseases of the Eye, Ear, Head, Throat, Lungs, Heart, Stomach, &c. No charge for consultation. Medical and Surgical rooms, 134 Smithfield street.

The question in political circles is—Is Seymour going to decline? Three weeks ago he told the Tammany Committee that he would transmit an early letter of formal acceptance. Since then he has not been heard from. What is the hitch? Evidently a screw is loose somewhere. What is it?

WADE HAMPTON THE TRUE EXPONENT.

A day or two ago we directed attention to the fact that the *Post*, the Democratic organ for Western Pennsylvania, had failed to publish WADE HAMPTON's speech delivered at Charleston, after his return from the Democratic Convention, in which he gives an authentic account of the formation of the Tammany Platform. To this the *Post* replies as follows:

The Restoration of a Lost Art.

Those who refuse to recognize the utility of beauty will not care to pass this article by, since we frankly admit in the outset that our aim is to encourage a love for the beautiful, while recording the rapid strides toward the restoration of a lost art. In spite of the elaborate doubts raised by the skeptical, the art of enameling and staining glass is currently classed among the Lost Arts. [illegible] Recent discoveries at Pompeii, however, demonstrate the fact that in the manufacture of glass, and especially in the art of staining and enameling, the ancients arrived at a degree of perfection which modern art despairs of equaling, unless it can approach it in imitation.

[illegible]

GENERAL AND PARTICULAR.

The Tice meter, which has been used in many of the distilleries of the country during the past year as a prevention of fraud, has been selected by the Treasury Department to be used for that purpose under the new Tax law. It is incased in a burglar-proof cover like an ordinary fire-proof safe, and cannot therefore be tampered with except by those who have possession of the keys.

At one of the latest balls in Paris a lady, very beautiful, but the wife of an exceedingly jealous husband, asked a brave captain to dance with her. The gallant officer could not prevent an exclamation of astonishment: "What is the matter, captain?" said the lady. "You know my husband is jealous, but so jealous that I am obliged to choose a partner who could not excite his favorite passion!"

Raw beef, according to the accounts of travelers, has for a long time been a common article of diet in Abyssinia. The correspondents of the English papers attached to Napier's army therefore directed their attention to this point, and found the report confirmed. The correspondent of the London *Telegraph* made a trial of this kind of food. He says that it is eaten with a great deal of Chile pepper and mustard, and the prejudice against it being once overcome, there is nothing unpleasant or nasty in the flavor of raw beef.

The Houston *Telegraph* says: "To-day there is not as much crime in Texas as among the same amount of population in any part of the North. Men of the North are just as safe in Texas as in one of their own churches at home." All of which may be taken with several grains of allowance.

A new method of manufacturing steel consists in grinding pig iron to powder by a rapidly moving cutter, the extreme friction producing a heat so intense that the iron is burned and falls down as a reddish dust. The superfluous carbon being thus got rid of, the iron dust is melted in a crucible, and when cooled is found to be converted into the finest quality of steel that can be manufactured.

Says a New York letter: The arrivals at the city hotels have exhibited a steady falling off from day to day during the week. As this is not usually the case about the beginning of August, the fact is a matter of much remark with those who are studying the premonitions of the fall trade. Next week people will begin to return from the watering places, and then doubtless we shall have livelier times all round.

Not a long time ago Mr. Pike, the well known whisky dealer and Opera House proprietor, formerly of Cincinnati, purchased 4,000 acres of Jersey salt marsh meadows, between New York and Newark, at a cost of about $19 per acre. After draining and reclaiming it at an average outlay of $85 per acre, he is now offered $200 per acre for the entire property, thus yielding him a profit of millions, if he chooses to close the bargain.

The experiment of shipping grapes from San Francisco and neighborhood to the Atlantic ports will this year be tried on a larger scale than last fall.

A gentleman who has just returned from Lake Superior states that the woods at Sault St. Marie, and for a distance of fifty miles east, are on fire, and that the devouring element is raging with fearful rapidity both east and west of the Sault. He says that persons on the deck of a steamer could not see a distance of over fifteen rods, and one night the steamer he was on was compelled to ride at anchor, it not being safe to continue the trip while the smoke was so thick.

PERSONAL.

—Senator Welch, of Florida, has accepted the Presidency of the Iowa Agricultural College, located in Story county, Iowa, and is to enter upon the discharge of the duties pertaining thereto next Spring. His term as Senator expires in March next, and he declines a re-election.

—There was picked up in the streets of New Orleans a few days ago, in a state of destitution, a man who was once a statesman, a Representative and Senator in Congress, and a lawyer of distinguished ability. At one time he was the idol of a great party in a neighboring State, and there was no position or place and confidence he could not have held. But, like many others, his intemperate habits soon forfeited him the respect of his friends and the confidence of his party. Sinking lower and lower in the pit of ruin, he dissolved his family connections. His wife abandoned him, his children forsook him, and, alone in the world, he was picked up in the streets of New Orleans sick and destitute, without money and without friends.

—Says a New York letter: It is reported that Mrs. Lincoln has taken passage in the Cunard steamer which leaves here for Liverpool on Wednesday next. A relative of the family in this city received a telegram from her, in Baltimore, this afternoon, leading to the belief that the reports of the lady's indisposition are much exaggerated.

—Prior to leaving for Europe, Thurlow Weed's physician enjoined him that he should strictly refrain from giving any thought to politics or reading the newspapers of the day. He is accompanied by a devoted daughter, between whom and Mr. Weed an attachment exists which can be compared only to that which existed between Aaron Burr and his daughter Theodosia together.

—It is said that Cassius M. Clay has abandoned his purpose of coming home and stumping Kentucky for the Republican ticket. This is somewhat of a disappointment to him, inasmuch as he is a great admirer of both Grant and Colfax, and his heart is in the cause. He forwarded to Washington many months since his resignation as Minister to Russia. [illegible] He, therefore, as yet remains at St. Petersburg until the expiration of the present Administration next March. His health has been much better of late.

—It is stated that General Robert E. Lee, the leader of the armies of the lost cause, will spend this month at French Lick Springs, in Orange county, Ind., as the guest of Dr. Wm. Bowles, the leader of the Sons of Liberty.

—Dr. A. D. Lord has resigned his position as Superintendent of the Ohio State Institution for the Blind, having accepted the superintendency of a similar institution at Batavia, N. Y. The trustees have appointed George L. Smead to be his successor.

—The President desires, if he can get away, to pay a visit to Newport, and he will probably get there before the end of this month.

—Reverdy Johnson has taken with him as [illegible] Wormley, the well known caterer in Baltimore, and intends to regale his visitors with canvas-back ducks, terrapin and [illegible]

A New Presidential Movement.—The following call has been issued in Chicago: "The people, without regard to party, sect or section, are earnestly solicited to assemble together in unity and counsel, at Crosby's Music Hall, Chicago, August 5, 1868, at 10 o'clock, for the purpose of putting in nomination independent candidates for President and Vice President of the United States. Let all who are in favor of this great and glorious co-operative movement, and homes for their families, attend this important and scientific convention. Let workingmen and women attend, especially. Miss Anthony, of New York, is expected. By order of the Committee."

The Richmond *Dispatch* takes occasion to say:

[illegible]

It should be remarked that the *Dispatch* supports the Democratic ticket with all its might. Since it confesses to advocating a "vile and foolish" policy, we are not surprised at its confusion of terms in speaking of the Democratic party as "the Northern people," and its further blunder in speaking of the national debt as "theirs."

Mr. Isaac N. Morris addresses a letter to General Frank P. Blair, based upon the following text: "A few days after the nominations were made by the Convention which assembled in New York on the Fourth of July, I had a conversation in Washington city with General Cushing, of Massachusetts, in which that eminent jurist and politician said: 'The simple question to determine at the election is, shall General Grant or Frank Blair be President for the next four years, for if Seymour is elected he will not live a year.'" Mr. Morris thereupon proceeds to define what manner of man General Blair is, much, no doubt, to Mr. Morris's personal satisfaction.

One of the new Georgia Senators, Hon. Joshua Hill, has come out for Grant and Colfax. When informed recently that Congress had relieved him of political disability, he said he had not asked it, as he had always been a Union man, and had done nothing to make it necessary. His colleague, Dr. Homer Virgil Miller, is, like Mr. Hill, an original Old Line Whig; was a supporter of Hon. John C. Breckinridge for President in 1861; was a surgeon of the 8th Georgia during the war; a member of the late Reconstruction Convention, and has been a warm supporter of the Democratic party since the close of the rebellion. Dr. Miller is an accomplished orator, and is just over fifty years of age.

A few days ago the Hartford *Times* professed authority to announce that Orville L. Grant, brother of General Grant, had declared his intention to vote for Seymour. The *Evening Post*, of Hartford, Connecticut, published yesterday extracts from a letter of O. L. Grant, pronouncing the statement false in every particular. Mr. Grant says he is strong in the Republican faith, always has been, and always intends to be.

HIGH TIMES IN ARKANSAS.

The "Null and Void" Men Going It!

At Little Rock, on the 26th, of July, the Republicans met to ratify the nominations of Grant and Colfax, and at least ten thousand were present. When the meeting was in full headway, a mob of secesh came charging down to the crowd with pistols in hand, and commenced firing; the fire bells of the city commenced ringing at the same time. Several shots took effect and wounded some twenty. Intense excitement followed, and Governor Clayton and others finally brought the chaos to order and dismissed the meeting. But for the exertions of Governor Clayton, the city no doubt would have been in ashes.

The next day there was a red-mouthed rebel meeting held to ratify the nominations of Seymour and Blair. A dispatch to the Chicago *Republican*, containing these facts, says:

"The principal orator was C. S. Cameron, who was a member of the New York Convention. He said, '*In sixty days from the adjournment of the Convention five hundred thousand soldiers would be organized into companies, regiments and brigades, and army corps, ready, if need be, to march to Washington.*' He recommended every secesh to take the oath required by the Reconstruction law—that it was unconstitutional, and not binding, and he closed by saying: 'We will take this oath all over the State, and send three votes into the Electoral College, and three Representatives to Congress, and if Ben Wade does not count our vote then comes the military organization, with General Slocum at its head, all armed and equipped.' Universal cheering followed."

POLITICAL.

REPUBLICAN
CITY CONVENTION.
The Republicans of the City of Pittsburgh are hereby invited to attend Primary Meetings in their respective wards, on
SATURDAY, AUGUST 15, 1868,
Between the hours of 3 and 7 P. M., and there vote for candidates to be placed in nomination for the several city offices, viz:
One person for Mayor of said city.
One person for Controller of said city.
One person for Treasurer of said city.
The votes at said meetings will be by printed or written ballots, containing the names of the candidates voted for, each office on a ticket by itself, and the elections, as far as practicable, will be conducted in accordance with the laws and usages regulating State, county and city elections, the officers taking care to keep a correct list of all persons voting the ticket.
The elections will be conducted, wherever it can be done, by the Republican election officers chosen at the last city election, and in wards where no such officers were chosen, the officers to conduct the election have been designated, as hereinafter mentioned by the City Committee.
The Committee suggest that the officers thus designated to hold this election shall voluntarily take the usual affidavit administered to election officers under the laws of the State, so as to shut out all cause of complaint.
The elections in the First and Second wards will be held at the Public School Houses in said wards.
In the Third ward at the southeastern corner of Sixth and Smithfield streets.
In the Fourth ward at the Public School House.
In the Fifth ward in the office of the Clerk of the Orphans' Court, at the Court House, under the supervision of A. G. Neeper, George Glass and R. J. Smith, who are appointed the Board to hold said election.
In the Sixth ward at the Public School House.
In the Seventh ward at the Public School House.
In the Eighth ward at the house of Henry Wilson.
In the Ninth ward at the Public School House.
In the Tenth ward at the house of Wm. Brown, at the corner of Penn and Mechanics streets.
In the Eleventh, Twelfth, Thirteenth, Fourteenth, Fifteenth and Seventeenth wards, at the usual places of holding elections in said wards.
In the Sixteenth ward at Gangwich's Hall, under the supervision of Noah G. Craig, Roland Smith and John C. Stewart.
In the Eighteenth ward at the place of holding elections for what was heretofore known as the 2d precinct of Collins township, under the supervision of David Jones, David Holmes and David Kirk.
In the Nineteenth ward at Joseph Ganster's house, on the Greensburg turnpike, under the supervision of John N. Berlin, Wm. H. Morrison and James Joyce.
In the Twentieth ward at Beitler's School House, under the supervision of Wm. H. Denniston, Geo. F. Rabauser and John B. Baum.
In the Twenty-first ward at Ross' School House, under the supervision of A. J. Woolslayer, S. B. Ross and B. W. Morgan.
In the Twenty-second ward at Irwin's School House, under the supervision of John R. Murdoch, William Irwin and Randal Morton.
In the Twenty-third ward at the usual place for holding elections in late Peebles township, under the supervision of Joseph Boals, James B. Palmer and James McKibben.
Every supporter of GRANT and COLFAX and the city nominees is earnestly invited to take part in said election, and none other; and the election officers are hereby respectfully urged to use all possible diligence to preserve the purity of the ballot-box and secure a fair return of the votes cast.
The election officers, after the votes are counted, will make up duplicate returns thereof, one of which, with the list of voters, shall be placed in the ballot boxes, and the other, taken possession of by the Return Judge; and the Return Judges of the several wards shall present the same at a meeting of Return Judges, to be held at the Common Council Chamber, on TUESDAY, August 18th, at 10 o'clock A. M., when they shall cause the same to be added together, and declare the result, the person receiving the highest vote for each office to be the nominee.
The Return Judges, at their meeting, will appoint the City Executive Committee to serve for the ensuing year.
The Committee desires to call the attention of the Election Boards to the following resolution, which was adopted at the last meeting of the Committee:
Resolved, That we recommend to the officers of the Primary Election the enforcement of all legal rules respecting the qualification of voters at general elections. In addition to the requirement that the voter shall be a known member of the Union Republican party.
A resolution was also passed authorizing the Election Boards to fill all vacancies occurring in the offices of their respective districts.

BLAIR AS HE IS.

HIS POLITICAL RECORD.

His Defection from the Republican Party.

Rich Expose of his Connection with Army Contracts, Etc.

A St. Louis correspondent of the Chicago *Tribune* gives a lengthy sketch of the personal and political record of Frank P. Blair, Jr., the Democratic nominee for Vice President, from which we gather the following interesting facts:

Frank Blair has been an inveterate office-seeker since 1852, when he was elected to the Missouri Legislature, and has never since ceased to avail himself of every opportunity to obtain place and power. He would have been a candidate for the United States Senate in 1863 had his party been in power, and it is believed if he is defeated in November next, as he certainly will be, and his party has a chance of electing a Senator next winter in place of John B. Henderson, Blair will claim the place.

PERSONAL RELATIONS.

In 1849 Blair married a Miss Alexander, of Kentucky, and has seven children, the oldest being a cadet at Annapolis, Maryland. Two of his cousins represent extremes in politics—one is B. Gratz Brown, late United States Senator, and the other General Jos. Shelby, of the rebel army. The latter is now his fervent supporter, the former his bitter political opponent. Blair is possessed of some property, but not nearly so much as before the war. His private business is not very closely attended to, and he is never likely to accumulate large wealth. While practicing law he bought considerable land in St. Louis, but has sold the principal part of it.

AS AN EDITOR.

In 1848 he was associated with Mr. McKee, present senior proprietor of the Missouri *Democrat*, in the publication of a Free Soil paper, called the "*Barnburner*," edited by himself and A. E. P. Garesche, now one of the fiercest rebels in St. Louis. That paper supported Van Buren and Adams for the Presidency and Vice Presidency. This was one of the first, if not the first, anti-slavery papers published on slave State soil, and it excited the greatest indignation among the old pro-slavery Hunkers of that day. Blair himself is now the political associate of men who would have hanged him in 1848, if they had dared, and the joke of the thing is that they have not changed, while Blair has. It is their boast that he has come over to them, while they have remained just where they were in 1848.

Shortly after his reconciliation to the Legislature of Missouri, Blair purchased a half interest in the Missouri *Democrat*, but soon sold one portion to B. Gratz Brown, and another portion to George W. Fishback, one of the present proprietors. Brown was installed as editor, and by the bold front the paper showed to the designs of the slaveholders to make Kansas a slave State, the paper soon achieved a national reputation. It is claimed that Blair was resolute and defiant as to the tone of the paper through all that crisis. He seldom wrote anything himself, but entrusted the actual writing to Brown, but he was always enthusiastic and always urging Brown to give the pro-slavery party stronger doses. There were no signs then that he would ever consort with the [illegible] he is now representing as a Vice Presidential candidate. Blair sold the remaining interest in the *Democrat* in 1863. Since then he has been its bitter enemy, and finds the *Democrat* his most inveterate foe.

ONLY A POLITICIAN.

Blair's elevation to Congressional honors revealed his true character. It was soon evident that his capacity was measured when he left the halls of the Legislature. In Washington he was unable to display his legislative tactics, and accordingly he subsided soon after the first bursts of welcome caused by his election as a *Free Soiler* from a slave State passed over him. His position was more common place, attracting little notice, and wielding no special influence.

HIS CONDUCT ON THE OUTBREAK OF THE WAR.

It used to be a very common thing to say that Frank Blair was the salvation of St. Louis in 1861, and saved it from the rebels. This is simply an error. Blair was a prominent actor in the part taken by St. Louis, but the loyal men of the city saved the city, and Blair's help was only an incident in the history of it. It is admitted that it was through the influence of Frank Blair that General Fremont was ordered to Missouri, but soon after the arrival at St. Louis Blair found that his power over him was weaker than he supposed it would be. Fremont took his California friends with him, and an unscrupulous set they were. Their chief merit at the last lies in the fact that they were too sharp for Frank Blair and his immediate associates.

THE QUARREL WITH FREMONT.

Of course Blair was glad to see Fremont, and Fremont gave a hearty welcome to Blair, after which the remarkable favoritism shown by Fremont to Germans began to excite Blair's jealousy, and a coolness ensued. Then came the contracts with the Californians. They were in Blair's way. His friends wanted the contracts, and the California clique soon became objects of vengeance. Blair protested in vain, and then wrote to his brother in the Cabinet to have the Fremont corps. Fremont's way of doing things. Fremont went in and his attorney to Washington to figure out the truth. CONTRACTS THAT FOR SHORT [illegible].

Prior to his arrest, General Blair made the most of his assumed influence in the department in behalf of his friends. In a book entitled "Vindication of General McKinstry," will be found some fine choice revelations on this subject, among them the following letters:

May 29, 1861.

Major McKinstry:

Dear Major—If you buy any more horses I wish you would give Jim Neal a chance. He is a personal friend of mine and a sound Union man. By employing Neal you will confer a great favor.

Frank P. Blair, Jr.,
Col. First Regt. Mo. Vols.

[This Neal was accused by the Congressional Investigating Committee with frauds and swindling, but he was Frank Blair's friend.]

St. Louis Arsenal, May 31, 1861.

Major McKinstry: John H. Bown is and has been all right, and I shall be glad if you can do him a favor consistently with the public interests. *Excuse everything I say in this short note.*

Your friend, Frank P. Blair, Jr.,
Colonel First Regiment Mo. Vols.

[Bowen got a contract for horses at $119 per head, though he was not a horse trader, and McKinstry was blamed for it. But who was most responsible, he or Blair?]

St. Louis, August 17, 1861.

Major McKinstry: I wish you would buy wagons from Espenshied & Keeme, German wagon makers. They are Union men. *Murphy and Wolfe are both secessionists and it is injurious to you and the cause.* Yours,

Frank P. Blair, Jr.

[The "Verdin," secessionist, here mentioned was the opposition candidate for Sheriff, in 1860, against John McNeil, a Union soldier, and was supported by Blair and his German Constituency, though not indeed a Union?]

St. Louis Sept. 6, 1861.

General McKinstry, A. Q. M.

Gentlemen: This will introduce Colonel Boyce, of St. Genevieve, a good Union man, who finds himself surrounded by unpleasant circumstances at home. The Colonel is desirous of obtaining a contract for the purchase of horses. * * * *It would be laying a special obligation on me to give him a contract.*

Respectfully, Frank P. Blair, Jr.

[This is the one that support given to Blair by the rebel sympathizer, Louis V. Bogy, in 1862, in the contest for the above letter on behalf of L. V. B's brother?]

November 27, 1861.

General McKinstry:

Gentlemen: Mr. E. Girard is the party of whom I spoke to you, and of whom I sent you a message by Charley Hunt. *He wants to furnish some horses to the government.* So fail to be obliged to.

Yours, &c.,
Frank P. Blair.

[Observe the dictatorial tone of the closing sentence of the last letter. The Charley "Hunt" here mentioned is appointed by McKinstry or Lexington recommended to him by Blair. Hunt had a contract for horses, [illegible]]

COE'S DYSPEPSIA CURE.

COE'S DYSPEPSIA CURE!

"CONSIDERABLE MERIT."

[From O. O. Twing, M. D. New Philadelphia, O.] NEW PHILADELPHIA, OHIO, Dec. 21, 1864.

MR. CLARK: I am acquainted with several persons who have used Coe's Dyspepsia Cure, and from their testimony I am convinced that the medicine possesses considerable merit. I should be glad to recommend it to my patients who may need such a medicine, and also to use it, when occasion may require, in my own practice; but our code of ethics, to which I freely subscribed, disallows me to use a medicine the ingredients of which I am unacquainted with. Most manufacturers of proprietary medicine do not hesitate to furnish their formulas to physicians, and if you are one of those, please send me your formula, and it is quite likely that it will lead to the sale of a few bottles, to say the least. I would suggest that it would be advisable to make deposits of the medicine in more places than you have in this State. There are many large, flourishing towns, where your medicine cannot yet be found, and where, I have no doubt, from what I know of the medicine, they would have a large sale. If you do not wish to have your complete formula known, please state the ingredients composing it.

O. O. TWING, M. D.

"A VALUABLE THING."

[From James M. Clark, Baldwinsville, N. Y.] BALDWINSVILLE, July 14 1868.

GENTS: Allow me to say that, although, as a general thing, I have a pretty poor opinion of patent medicine, still I am disposed to regard your "Coe's Dyspepsia Remedy" as a valuable thing. From boyhood I have been troubled with that most terrible form of sick headache that ever fell to the lot of suffering humanity, and, although I have swallowed almost ever known specific for this disease, none has ever seemed to permanently benefit me until this "Coe's Dyspepsia Cure." I have not yet taken quite a bottle, and since I have commenced its use I have not had even a symptom of the headache. This is two months since. Previous to that I usually had it at least once a week, sometimes twice.

Respectfully, JAMES M. CLARK.

"THE BEST ARTICLE."

[From T. J. Rand, Muskegon, Mich.] MUSKEGON, MICH., May 27, 1867.

MESSRS. C. G. CLARK & CO.:

Having used Coe's Dyspepsia Cure, I can recommend it to all who are troubled with that complaint. It cured me, after having suffered for ten years, and tried many other remedies without obtaining relief. I believe it to be the best article offered to the people for the cure of Dyspepsia. Yours, &c.,

T. J. RAND,
Banker, Muskegon, Mich.

"A PERFECT CURE."

[From J. H. Moulton, Battle Creek, Mich.] BATTLE CREEK, May 5, 1868.

MESSRS. ANDREWS & GRANDINE, Druggists:

In reply to your inquiry as to results in using the bottle of Coe's Dyspepsia Cure we purchased from you, we take the first opportunity to state that, for my using it for indigestion, I can certify that in my case it has proved itself a perfect cure.

I most cheerfully and earnestly recommend it to every one who has suffered from the ravages and horrors of this terrible disease. Yours truly,

JOHN F. MOULTON.

"INSTANT RELIEF."

[From J. W. Niel, M. D., Delaware, Ohio.]

MESSRS. CONWELL & CO., Druggists:

In reply to your inquiry as to results in using the bottle of Coe's Dyspepsia Cure we purchased from you, we take the first opportunity to state that, for a young man, I am an old dyspeptic, and have tried almost everything in the line of prescriptions and formulas, from physicians and books, and never found anything to equal Coe's Dyspepsia Cure. The first dose I took of the Cure, I felt almost instant relief, and went about my business in a happier mood than I had for years before. After finishing one bottle, I arrived at the happy conclusion that I was cured, and had it not been for my own imprudence in eating, I doubt whether the disease would ever have returned. I most cheerfully and earnestly recommend it to every one who has suffered from the ravages and horrors of this terrible disease. Yours, truly,

J. W. NIEL, M. D.

"VERY MODEST."

[From H. M. T. Smith, Dunkirk, N. Y.] DUNKIRK, N. Y., May 1, 1868.

GENTS—I inclose your circular, I know of two parties—wives of prominent citizens in this place—who have been greatly benefitted by the use of your Dyspeptic Cure, but they will not consent to the public use of their names. And thus the matter rests, with a steadily increasing sale.

Yours, respectfully, H. M. T. SMITH.

"REPUTATION GAINING."

[From Rev. Allen Crowell, Brookville, Pa.] LUTHERSBURG, PA., May 2, 1867.

MR. JOSEPH FLAMING:

SIR—"Coe's Dyspepsia Cure" is gaining a reputation amongst our people. The medicine already used is having the desired effect. A friend wishes me to get a bottle for him, for which I send you $1. Send to my address, as soon as possible.

Yours, &c., Rev. D. ALLEN CROWELL,

TUESDAY EVENING, August 4.

The official statement of the National Banks for July shows a most extraordinary increase in their deposits, which since April have risen 47 millions of dollars, the aggregate being now 535 millions. It is impossible to conceive a more striking proof of the accumulation of capital in the great monetary centers and monetary institutions of the country. This plethoric condition of the money market, it is thought, is not altogether healthy, and is caused in great part by the want of confidence in present prices and the uncertainty hanging over business enterprizes, the facts that always conduce to the increase of capital.

—Gold reached a high point to-day. The Government gold draft for the Alaska purchase money was collected in New York on Monday, and deposited in the Bank of Commerce. Two millions will be shipped to Europe on Wednesday, and a like amount on Saturday. In consequence of the drain in the gold market the premium is stiff at the quotations.

—The New York stock market has been the scene of another fierce struggle between the bulls and bears of Wall street. Erie, which is the controlling stock, has been called down from 68 to 58½, a decline of ten per cent. The balance of the list, which has been comparatively strong for a few days, has sympathized with the fall in Erie.

The following comparative statement, furnished by J. W. Kennedy, Broker, 80 Fourth street, shows the range of prices for the past week at the New York Stock Boards:

[illegible]

—The following stocks were sold last evening on second floor of Commercial Sales Rooms, 106 Smithfield street, by A. McIlwaine, Auctioneer:

[illegible]

—There is no material change in the Government market. The demand is limited, and prices a trifle lower. There is an increasing indisposition to deal in them. They are dull and neglected.

James T. Brady & Co., Bankers, corner of Fourth and Wood streets, furnish the annexed comparative range of prices for government securities:

[illegible]

Messrs. Ira B. McVay & Co. report the following quotations of Government bonds in New York to-day, as furnished them by Jay Cooke & Co., their correspondents:

[illegible]

—The payment of the semi-annual interest on the State loan was begun at the Farmers' and Mechanics' Bank in Philadelphia on Saturday. The Philadelphia *Ledger*, of yesterday, remarks: "In the absence of so many of the heavier holders from the city the payments were less than usual. The very light business demand for money may be another cause for the limited amount paid out."

OFFICE OF THE PITTSBURGH COMMERCIAL, August 4, 1868.

BUSINESS—The market was devoid of activity. The differences of opinion between buyers and sellers have not been adjusted; this will account for the limited operations for some days past. Dispatches from the East furnish the following: Philadelphia—market quiet but firm, not much doing; prime light straw to white 33c; standard white, spot, 33@34c, August, 34@35c, October, 35@35½c. Crude, bulk 16c; barrels included, 20c. New York—holders were firm with light operations; prime light straw to white 33c; standard white 34c; crude 16c for bulk. Oil City—holders were firm at $3 40@3 50; on the Creek $3 25@3 25 ℔ barrel.

REFINED—The market was inactive; holders are not inclined to operate at the present prices. The result was we have but few sales to report, viz: 1,500 bbls standard white, Philadelphia, first half August, 34c. Sales 4,000 bbls deliverable the last four months; the terms were withheld. Sales 500 bbls last half September at 35c ℔ gal.

BENZOLE—We are reported sales of 3,000 bbls, seller's option, Philadelphia, September, at 13½c ℔ gal.

CRUDE OIL—The receipts since our last were 3,040 bbls. Sales 1,000 bbls bulk, seller's option, all this, at 17½c. Sales 500 bbls free on board at Venango City $3 40 ℔ bbl.

PETROLEUM MARKETS.

BOSTON.

The market is beginning to exhibit the animation incident to the opening of the business season. The usual stocking up demand for the fall trade has set in, and refined oil is selling quite freely, and in good sized lots, at rates based upon the cost of production and the repeal of the excise tax. The distinctions of free and bonded oil no longer exist. The export trade is fair for the season, with the prospect of large shipments. Holders and refiners are firm in their views, with moderate stocks. [illegible] The *Bulletin* [illegible] for Boston, the outside rate for kerosene. Naphtha is selling at [illegible] gallon, as to gravity; Petroleum at $3 75@3 50 ℔ bbl.

NEW YORK.

Crude in bulk, on the spot, continues in light demand, but the market rules steady and firm, with sales, noted by the *Shipping List*, of 2,300 bbls, spot and short delivery, at 17@17½c; for August, there has been a good demand, and sales have been made of [illegible] The market for refined has declined since our last, and sales have been made as low as 33½c, but yesterday there was a better [illegible] the market closed firm at 33½c, with [illegible] 2,000 do, short delivery, 34c; 3,000 do, August, part [illegible] do, September, 34c, last half. Of naphtha, 100 bbls sold at 10c.

LIVE STOCK AT CHICAGO.

CHICAGO.

Taking into consideration the enormous supply of cattle, the market during the past week has been a more favorable one to the interest of drovers than was expected. To deluge the market with a supply of 11,500 beeves at this season of the year when the prevalence of warm weather greatly restricts the consumption of fresh meats, and with a class of stock, too, for which there is at no time any reliable demand, is sheer nonsense, and must invariably result disastrously to owners. The markets below have been in good healthy condition throughout, and with a fair margin to work upon, shippers on the opening day took hold sharp, and all good first and [illegible]

IRON.

NEW YORK.

The recent considerable advance in the price of Scotch Pig checks the demand, but the high cost at the present rates for gold stiffens holders, and the market is firm. Sales reported by the *Shipping List* of 100 tons Glengarnock, ex-ship, at $41; 50 do Eglinton, ex-ship, $42 50, in lots from yard, $41; 50 do Coltness, $40; and 75 do Gartsherrie, $41. No. 1 American continues scarce and firm; there is no Lehigh offering. No. 2 is in good supply; we notice [illegible] 1 N Allentown, 100 do X Roberts [illegible] dull and [illegible] English, ex-ship, on private terms. Bar from store continues dull at our quoted rates, which, however, are rather nominal. English Refined Bar, at the [illegible] here upon the wharf, which is barely equal to the present store price, without allowing anything for profit.

BOSTON.

The market for pig iron is steady, with a moderate demand from manufacturers at about previous rates. The stocks are very light for the season, and at the ordinary rate of consumption, prices would be forced to a higher range. But there is a timid feeling among buyers, who are in doubt as to the prospective demand for their products, and are working very cautiously, and, as far as possible, upon orders.

The supply of good foreign brands immediately available is very small, but several cargoes are reported on the way. The better quality of domestic continues very scarce, and the late disturbance among the mining and other operative classes of Pennsylvania, has rendered holders very uncompromising in their views.

The demand for manufactured iron is gradually improving and the stocks of foreign bar and sheet are sold quite close up. Castings are not yet active; but some kinds of seasonable hardware are selling quite freely to Western buyers. Rails and boiler plates continue in fair demand, and many of the hardware manufacturing establishments have considerable orders for machinery.

Gloucester Fish Market.

[For the week ending July 31.]

Georges Codfish—Sales the present week at $6 75.

Mackerel—Shore in light receipt. A few fares have arrived from Georges the past week, which have met with ready sales. We quote No. 1 at $20 50; No. 2 $15 50. Advices from the Bay represent mackerel very scarce, and there will probably be no arrivals from there for the present.

Fresh Halibut—Scarce; last sales of Georges at $9 [illegible]

WOOL.

BOSTON.

The prominent feature of the wool trade during the past week, remarks the *Bulletin*, is the good understanding which seems to have been arrived at between buyers and sellers, and which has resulted in a very brisk movement in the commodity. The transactions foot up a very large amount; though, as several leading dealers, who are reported to have sold very heavily, positively decline to furnish any particular information for the press, it is impossible to give the details in full. In such cases, the public must be left to draw its own inferences.

The receipts have been very large of late, and stocks have accumulated on the hands of dealers. The latter, with a wholesome fear of exhausted margins, are not disposed to carry forward unwieldy stocks at this season of the year. Hence, buyers have been met in a compromising spirit, and inducements held out which have made it an object for them to operate freely. Many of the large manufacturing corporations have taken large lots of staple, and, in fact, nearly all consumers, who have the ready means at command, have been disposed to anticipate their wants.

Of course, they have done this with the conviction that the advantage is on their side, that wool prices are down to the hard pan, and nothing is to be gained by further delay. In this assumption they are probably correct, since the market exhibits more tone and steadiness since the relief it has experienced from these large operations, and is evidently less pressure to sell at the close. The prices paid for large lots, ranging from 42 to 45c for extra Michigan and Ohio, guaranty a fair margin on manufactured products, even though the fall trade should be moderate in volume, and hold out the chance for handsome profits if that trade should be active. They may not have been remunerative to consignors in all cases; though, as a general thing, they have probably covered the cost of wool laid down here.

The receipts, for the next few weeks, will probably exhibit a material falling off. The lack of margin on shipments will cause western operators to stay their hands. Besides, at this stage of the season, farmers are too busily engaged in securing their cereal crops to give any attention to the wool trade; and many buyers are also in the same category. But after the wheat harvest, we may look for a resumption of wool operations, though perhaps upon a new basis. The clip of Michigan has mostly all been marketed and sent forward, as well as a very large proportion of that of Ohio. In other Western States there is a considerable balance yet in the hands of growers; while the clip of Pennsylvania, New York and Vermont, has not yet been taken, because not wanted, to any extent.

Fine wool (X and XX) is now inquired for, and a large proportion of the last week's sales has been of these grades. Medium and low western wools are now plenty, and have declined to their natural level. California and Texas wools are dull, while foreign descriptions are almost entirely nominal.

Sales of domestic for the week have been large and foot up about 1,700,000 lbs at a range of 40@48½c for fleece, and 35@52½c for the various grades of pulled.

RIVER NEWS.

THE towboats Greyhound, Collier and Mary Alice will bring to this city 2,250 tons iron.

THE coal men have had a busy time. The amount of coal to go out on this rise will reach 1,665,000 bushels.

THE steamer B. L. Hodge was sold by the United States Marshal at New Orleans, on Tuesday, to Mr. E. Conery, for $2,100.

THE little steamer Veteran was sold by the United States Marshal at Gallipolis on Saturday, to Wm. H. Billings, for $1,250.

IT cost the steamer Mattie Burns, from St. Louis, $200 to lighten and dray her freight from Portland to Louisville.

CAPT. DUNHAM has contracted with Stewart & Barmore, of Jeffersonville, Ind., for the hull of a new boat for the New Orleans trade, her capacity to be 1,000 tons.

THE following passenger boats were in port last evening: Messenger, Kate Robinson, Armenia, Kenton, Armadillo, Kate Putnam, Bayard, Grey Eagle, Glasgow, Elizabeth and Elector.

CINCINNATI.—The recent rise in the Ohio river has brought out all the first-class packets. The double-decker America, and the General Lytle, of the United States Mail Line, resumed their trips between Cincinnati and Louisville on Monday.

THE marks last evening indicated seven feet six inches and falling slowly. The weather was very pleasant. The Belle Vernon left last evening with all the freight she wanted. The Kate Robinson, Captain Hays, leaves this morning at 10 A. M., for Cincinnati and Louisville.

THE first class passenger steamer Kate Robinson, Captain Marsh Hays, is announced for Cincinnati and Louisville to-day. The Katie is a general favorite with passengers and shippers. We take pleasure in congratulating Captain Hays on being promoted to the command of so fine a boat. Our old friend Mr. Wheery will retain his place in the office.

ST. LOUIS.—The *Dispatch* says: We are pleased to learn that James H. McCord is likely to receive the appointment of Boiler Inspector in place of Mr. Morgan, who committed suicide a few days ago. The papers have been forwarded to Washington, and the recommendations sent with them will no doubt result in Mr. McCord's receiving the appointment. He filled the same position many years ago to the entire satisfaction of everybody.

MONDAY'S Cincinnati *Gazette* says: The Ida Rees arrived from Fort Benton last evening, and went to the Little Miami Railroad elevator to discharge 700 sacks corn. Including this, she had about 100 tons freight for here. The Ida Rees is commanded by Captain George W. Albert, a young man only twenty-two years of age, and her clerk is Mr. George D. Strong, who was once a newspaper reporter in St. Louis. She made in sixty-eight days the trip from St. Louis to Fort Benton and back, one of the most successful trips of the season.

THE St. Louis *Democrat* says: Mr. A. Martin, of the Silver Lake, just down from the mountains, brought a large number of specimens to be added to the famous menagerie at Fairview, West Virginia. The list embraces one elk, two bull snakes, two horned frogs, one kangaroo rat, one Indian pony, wolves, &c., with his buffaloes, grey eagles, foxes, a valuable collection, captured on former voyages, will form part of this city. Mr. Kimber, another officer of the boat, has an Indian pony, designed for the use of his son.

ALL ABOUT TOWBOATS.—The towboat Mary Davage and barges will arrive at Steubenville this evening, with 700 tons of iron ore for that place.

The towboat Greyhound passed Wheeling yesterday on her way to this city, with 3 barges of iron ore containing 750 tons.

The towboat Collier left Cincinnati on Tuesday morning for this city. She tows 3 barges, containing 750 tons iron ore.

The towboat Mary Alice passed Wheeling on Tuesday afternoon. She tows 3 barges containing 750 tons iron ore for this place. Besides this she has 4 empty barges.

ELEVATOR SOLD.—Mr. Robert Lowrey has sold his iron grain elevator at Davenport to Mr. A. J. Preston for forty thousand dollars. The *Gazette* understands that the sale was an initiatory step towards the organization of the Davenport Elevator Company, which proposes to enter into the grain business with a large capital. Messrs. Hiram Price, Geo. L. Davenport, A. J. Preston, B. B. Woodward, and several other prominent citizens are interested in the movement. The capacity of the elevator sold is 100,000 bushels. We are pleased with such evidences of growing interest in the subject of handling grain in bulk, and hope that the St. Louis and upper Mississippi packet companies will not be found unprepared for their important part as carriers of grain in bulk.

Sale of the St. Louis and Quincy Packet Line.

In river circles it was very generally understood for some days past negotiations were under way for a union of the Northwestern Union Packet Line, running between St. Louis and St. Paul, and the St. Louis and Quincy Line, established to run in opposition to the old St. Louis and Keokuk Packet Line. We have excellent authority for the statement that the papers for the transfer of the Quincy packets, Tom Jasper, Mollie McPike and Victory, and the company's wharfboat here to the Northwestern Union Company were signed yesterday. The business was transacted in the apartment of Captain Abe McPike, Captain Davidson, President, and Mr. Rhodes, Secretary of the Northwestern Union Line being present. It is intimated that in a short time the headquarters or principal office of the company will be established here. This important cash transaction has naturally created a good deal of speculation, and some hold the opinion that it bodes no good to the

OLD ST. LOUIS AND KEOKUK PACKET COMPANY.

This company is wealthy, and managed with the utmost energy and shrewdness. The line has held its own successfully against all opposition hitherto, and no doubt it is able to sink a few hundred thousands before it would exhibit any signs of dissolution. The Quincy line, which has just become defunct, has done the public a large amount of good, and it deserves to be remembered with the kindest feelings. But the task it undertook was bold and hazardous, against its experienced, determined and wealthy antagonist. We suspect that the managers of the Northwestern Union company have their attention directed mainly, however, to a grand contest for the supremacy with

THE NORTHERN LINE PACKET COMPANY.

This is a St. Louis institution, and more, an institution popular at every point of the 800 miles of river which divides St. Louis and St. Paul. It was founded many years ago, by a number of our oldest and most honorable upper Mississippi boatmen, has grown to such proportion that its property is valued at not much less than one million dollars, and its stock has always been considered among the best. It has ever been creditably managed, and enjoys the confidence of the public in an eminent degree.

But it is a fine thing to control the business of such a magnificent stretch of river, and there will doubtless be a protracted contest for the mastery. We have observed that arrangements which were made hitherto between the two rival lines somehow or another did not long continue in operation.

There are between St. Louis and St. Paul the following numerous railroads touching the river, each of them acting as a feeder to the steamers which ply on the Upper Mississippi. At:

Alton	2	Rock Island	2
Hannibal	1	Clinton	1
Quincy	1	Fulton City	1
Keokuk	1	Savannah	1
Hamilton	1	Dubuque	2
Burlington	1	Dunleith	1
East Burlington	1	McGregor	1
Muscatine	2	Prairie du Chien	1
Davenport	2	La Crosse	1
		Winona	1

After the above was written we received a communication from an authoritative source, to the following effect: The White Collar line and the Quincy line have consolidated; will hereafter run under the management of the N. W. U. Packet Company; the line will be continued to Keokuk as heretofore to do the local business, and an extension of the line will run to St. Paul, exclusively for passengers. The stockholders of the Quincy packet company retain their stock in the new line the same as in the old. The superintendent and secretary of the St. Louis and Quincy Packet company will retain their positions and attend to the business of the new concern with the same promptness and courtesy that has heretofore characterized them.

GET A GOOD SAW,

And Your Mill will do Good Work

Our Saws are Oil Tempered, Patent Ground, made to Run well.

You will find each Saw of one temper, no hard and soft spots in the same saw.

We accomplish this by our Patent Tempering Process, and you can not get this from any other saw maker, as we own the patents for the United States.

We do not claim to make a cheaper Saw than any one else, but one that will run at the word *go*, and will give no trouble, and will keep round longer; because being uniform with temper, it will not wear on one side faster than the other.

We invite correspondence, or an interview with the practical man of your firm.
